

Family and loved ones welcomed.

Patina helps you stay informed as part of the care team.

At Patina, we recognize the important role you play in supporting the health and well-being of your family and loved ones.

That's why we make it easy for you to stay involved and informed as a core part of the care team.

Care the way it should be.

You can rest assured that those you support are receiving the highest quality care through a Patina primary care practitioner and health champion, who will advocate for all aspects of their care. Because we understand the unique changes that take place as we get older, we can bring in specialized resources in areas like pharmacy, emotional health, chronic condition management and more. What's more, there's no extra cost — Patina is an in-network provider in most health plans.

Save time, gain peace of mind.

Patina's primary care team takes the time to get to know your loved ones, addressing their needs as a "whole person" and coming right to their home — through virtual care and in-person visits when needed. For you, that means less time driving to appointments, or arranging transportation and coordinating care. We'll take on the legwork and follow-up on details to ensure things are running smoothly, keeping you in the loop every step of the way.

Supporting you, too.

We know how valuable your time is. Which is why you'll appreciate the support of a Patina health champion who takes on the logistics of your loved one's care. From setting appointments, communicating between specialists, and more, our health champions save huge amounts of time and take some of the burden off of you.

It's easy to communicate with the care team. Just download the Patina mobile app, and both you and the person you're supporting can talk to the care team the same way that you would with family or friends.

You can also join your loved one's appointments via video and access important updates, specialized advice, support and resources to help you in your role. Go ahead, take a deep breath and let us help.

Patina takes a totally different approach,
and I couldn't be happier.

Meet Dave

Dave Hansel stays connected to his Patina team – wherever he goes – and values how the mobile app keeps his daughters apprised of his medical status and appointments.
