

Your care. Your way. Just for adults 65+.

Rely on Patina for patient-centered care, navigation and coordination. If you like, keep your current primary care provider and get an extra level of support for your total health and well-being. Either option is at no additional cost. Enjoy age-friendly, whole person care that helps you live well and thrive!

Choose Patina as your primary care provider

As your primary care provider (PCP), we'll go beyond basics like annual physicals and immunizations. With Patina, you'll have a dedicated, easily accessible team to help with staying healthy, coordinating and navigating care, managing chronic conditions, supporting your emotional health and more. We'll take the time to listen, ensuring you have a care plan focused on your specific goals, values and preferences. It's easy to change — leave the paperwork to us!

Keep your doctor plus enjoy Patina specialized care

If you're satisfied with your current PCP and still want to benefit from Patina's extra care and navigation support, there's no need to change if you're in a qualifying plan. We'll work alongside your PCP and other providers to help with the legwork and provide complementary support for things like managing medications, coordinating appointments, managing chronic conditions, confirming insurance coverage, getting help with other health-related needs and more.
