Reinventing the primary care experience

Happy patients share their experience with Patina

Every day, we hear from patients who express their delight – and gratitude – for our services, telling us Patina is the kind of care they always wished they had but didn't know existed. This feedback is gathered through our own satisfaction surveys as well as online review sites, where our patients consistently award us near-perfect ratings.

“All the medical concerns that would happen in the doctor’s office happen right here in my home. I love the idea that you’re using technology...it just makes the process a lot easier. I appreciate it — I really do!”

“If I were on my own, I’d just forget to take care of myself. I’d schedule an appointment and forget to go. I’d get the medications and forget to take them. The (Patina) team is there when I need them, and I am so happy with my care.”

Meet Arun

- Electrical engineer who continues to work at his own pace
